

# MANUAL BOOK

## PAYLABS x MAGENTO2

1. Download source code Paylabs Magento2 di github  
(<https://github.com/paylabs/Paylabs-Magento2>)
2. Upload code tersebut ke folder [path magento]/app/code/Paylabs/Payment/

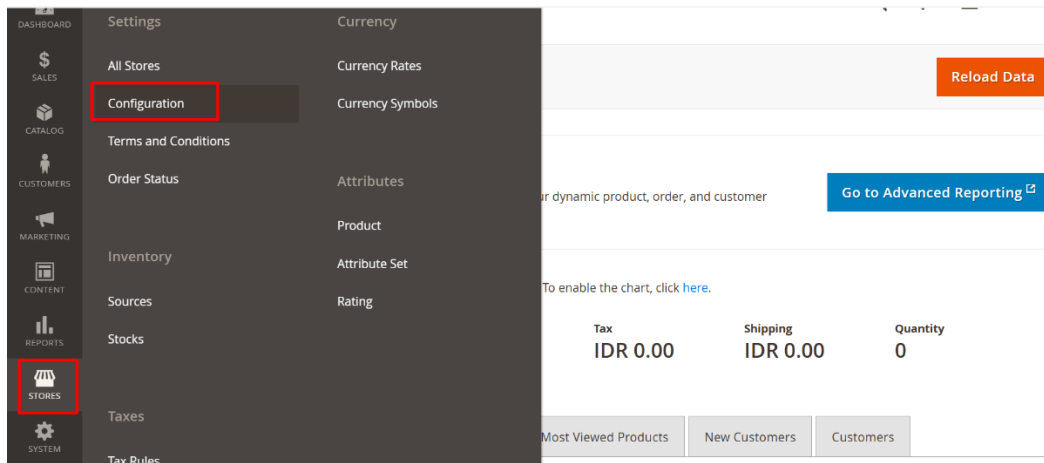

```
root@servertest: /home/epem/magento2/app/code
root@servertest:/home/epem/magento2# ls
app                composer.json      generated          LICENSE_AFL.txt   phpserver         var
auth.json.sample  composer.lock      grunt-config.json.sample  LICENSE.txt        pub               vendor
bin               COPYING.txt        Gruntfile.js.sample  nginx.conf.sample  SECURITY.md
CHANGELOG.md      dev               lib               package.json.sample  setup
root@servertest:/home/epem/magento2# cd app/code/
root@servertest:/home/epem/magento2/app/code# ls
Paylabs
root@servertest:/home/epem/magento2/app/code#
```

3. Jalankan script dibawah ini

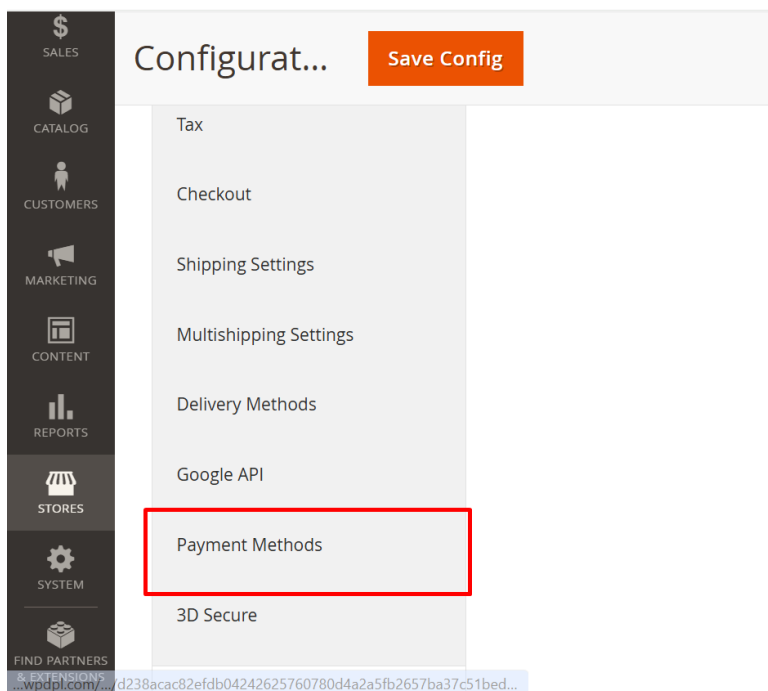

```
bin/magento module:enable Paylabs_Payment
bin/magento setup:upgrade
bin/magento cache:flush
```

```
root@servertest: /home/epem/magento2
root@servertest:/home/epem/magento2# bin/magento module:enable Paylabs_Payment
bin/magento setup:upgrade
bin/magento cache:flush
No modules were changed.
Cache types config flushed successfully
Cache cleared successfully
File system cleanup:
/home/epem/magento2/generated/code/Aws
/home/epem/magento2/generated/code/Composer
/home/epem/magento2/generated/code/Magento
/home/epem/magento2/generated/code/PayPal
/home/epem/magento2/generated/code/Php
```
